An interesting month. Passenger numbers were up 27% when compared to July 2020, though International passengers only increased by 6.2%, but Domestic by 1867%, which was nearly 20 times the passengers for July 2020. There were a large number of transit passengers as Jet2.com were consolidating aircraft by combining passengers from two airports but by air rather than coaching them in. We also had our first charter passengers since before the pandemic.
